# DEDICATION

PROGRESS is a distinctive mark of mankind. No other living thing is capable of this trait. As we are endowed singly with this trait called progress, it is our responsibility to see that it is carried out.

Through the years our school has seen a great deal of progress. Progress has been illustrated by our growth in the size of our student body, and in the addition of the many new buildings and facilities on our campus which challenge students to excel in more and better ways. And progress has been illustrated by the students themselves.

Therefore, we dedicate this 1965 "La Aurora" to progress, the responsibility of each one of us. We have been given new buildings and facilities. Let us use them not only to further our learning but also as a stepping stone to new and better things . . . for this is progress! We have grown in size. Let us not discontinue our spirit of unity and our desire to have one BEST student body.

For to continue in the same spirit regardless of size is indeed progress. Many students have excelled and gone on to do great things. Let us each endeavor to excel higher and go on to do better things, as the achievements of each student is a clear illustration of progress. Organizations of our school have conquered high goals. Let us not think that now there are no more goals to conquer. Let us instead strive to conquer even the smallest of goals which might seem unimportant. This is progress.

This Annual is a unit in your measure of progress. Look back often and remember the challenge that faces you as a student each time you attend a class, each time you join an organization, and each time you realize that you are one of many that constitute a student body. Therefore, it is to progress that we dedicate this Annual.

# BOARD OF EDUCATION

Mr. Tom Remington

Every student who has attended the Calexico public schools from elementary through high school has a unique opportunity that can be of great advantage in making a living. He can become truly bilingual. He has the opportunity to learn Spanish and English in a thorough and complete fashion.

With the increasing use of automation and other labor saving devices, the search for a job or a position will become increasingly competitive. The advantage of being bilingual will open up many job opportunities. How helpful it will be for you to have a skill such as that of a stenographer, druggist, merchant or doctor and also be able to speak fluently in two languages.

Make use of this ready and available opportunity.
